## FSLT Audience

It is with much excitement that I welcome you to our performance of Working. Enjoy the wonderful cast, the music by George Mann and the efforts of my great crew.

Working takes everyday people, working in many different jobs, and tells their stories in words and song. Each person will relate to at least one character so prepare to laugh and cry. The music will be new to you, but I promise you will leave remembering at least one song.

I have loved this show for years and I thank the Little Theatre for the opportunity to present it for the community.
