Director's Note

I was born in 1972 and fondly recall sitting by the radio as a child listening to Christmas music on vinyls and on 8-tracks. Elvis Presley and the Carpenter's Christmas albums were favorites. I remember looking at the real Christmas tree that my Dad would cut down and strap to the top of the station wagon, the smell of the tree and icicles that we loved to help put on the tree (I am sure we made more of a mess, than helped). If you experienced a Christmas in the 1970's, I hope this show will bring back fond memories for you.
